

# Emergency Egress System

Distinctive photoluminescent emergency egress solutions for professional interiors

## A Handsome System of Photoluminescent Lighting, Signs and Markers for Emergency Egress

Your emergency egress system shouldn't detract from the distinction and architectural interest of your building. Safe Glow™ offers a full range of architectural grade photoluminescent products that combine to create a highly effective and attractive egress system. Safe Glow™ also offers the highest performing photoluminescent products in the world. We believe that high photoluminescent performance is synonymous with life safety in egress products.

- Exceeds all 2007 California Building Code requirements, 2009 NFPA Life Safety 101, and 2009 International Building Codes
- “Green” alternative for egress products
- Products charge with ambient light – no electricity, batteries, or replacement parts required
- High-performance products glow for more than 16 hours
- Anticipated product life is greater than 25 years
- Easy to install; minimal maintenance over the life of the product
- Exit signs are UL or ETL certified to meet UL 924 requirements

Call Safe Glow™ today to learn more about using photoluminescent solutions in your building's life safety plan. Count on Safe Glow™ for high-performance and handsome life safety products.
