

Door Knob Rings

Door Knob Rings

Safe Glow™ offers both Professional Interiors and Economy Door Knob Rings. Many rooms and offices do not require emergency lighting but present significant hazards when electricity is lost. Door Knob Ring products offer an inexpensive and effective way to provide orientation in darkness. High performance glow leads occupants out of dark rooms to the egress hallway where low-level self-illuminating products are often required by code. The door knob rings also help evacuees identify whether the door is open, closed, or ajar in order to keep the door from becoming a barrier to exiting.

Photoluminescence allows these products to charge with ambient light and glow for more than 12 hours when lighting is lost.

Features:

- Non-radioactive and non-toxic
- Charges using ambient light
- Uses no electricity or batteries
- No maintenance required
- Self-stick 3M VHB tape provides for easy installation

Specifications:

- Expected operating life - 25 years
- Warranty - 5 year limited warranty

Door Knob Rings - Professional Interiors Line

High-performance Door Knob Rings

Product Number:
Commercial Sized
Escutcheon:
DKR-01L

Dimensions:
L 5.75" x H 4.5" x T .125"
Inside diameter 4.5"

Weight:
1.5 oz.

Product Number:
Residential Sized
Escutcheon:
DKR-01S

Dimensions:
L 3.5" x H 4.81" x T .125"
Inside diameter 2.625"

Weight:
1 oz.

Description:

Safe Glow™ Professional Interiors Door Knob Rings are made from our highest performing photoluminescent material. Their principal purpose is to provide a point of reference on whether the door is open, closed, or ajar when power failures occur.

Design:

Safe Glow™ Professional Interiors Door Knob Rings are gracefully shaped so that once installed, they appear integrated with high-end door hardware. No other products provide brighter or longer-lasting photoluminescent performance than Safe Glow™ Professional Interior products.

Installation:

These Professional Interiors Door Knob Rings come with two strips of 3M VHB adhesive at the top and bottom for easy peel-and-stick installation.

Performance:

These products glow for more than 16 hours with a full charge.

Door Knob Rings – Economy Products

Economy Door Knob Rings

Product Number:
Commercial Sized
Escutcheon:
EDKR-01B

Dimensions:
D 4.75" x T .125"
Inside diameter 3.5"

Weight:
.5 oz.

Description:

Economy Door Knob Rings are an inexpensive way to provide a point of reference on whether the door is open, closed or ajar when power failures occur.

Design:

These economy products are made with a larger diameter to fit most door knob escutcheons.

Installation:

These door knob rings come with four small pieces of 3M VHB peel-and-stick tape for easy installation. These door knob rings can be trimmed to meet unique hardware requirements.

Performance:

These products glow for more than 12 hours with a full charge.
