

# Path Markers – Professional Interiors

## Professional Interiors Walkway Markers

Safe Glow™ Professional Interiors Walkway Markers are designed to guide evacuees around hazards and barriers, indoors or out. Walkway markers do an exceptional job identifying transitions or changes of elevation. They are also helpful identifying a path of egress in larger, unconfined spaces. Both models of markers are designed to be adhered flush to the floor or paved surface, and meet ASTM guidelines to prevent tripping, or slip and fall dangers. Both will glow all night long with a full charge.

### Features:

- Non-radioactive and non-toxic
- Uses no electricity or batteries
- Charges using ambient light or sun light
- Glows for more than 12 hours
- No replacement parts and little maintenance required
- Easy Installation

# Path Markers – Professional Interiors

## Indoor Circular Path Markers

Product Number:  
CPM-01

Dimensions:  
5" outside diameter  
x .25" T. 3" diameter  
photoluminescent  
center

Weight:  
6.4 ounces

### Description:

Circular Path Markers are a high-performance, low-level path marker. Their principle purpose is to establish an egress pathway in large open areas or guide evacuees away from potentially hazardous areas.

### Design:

These floor mounted markers are made from stainless steel and are designed to take some abuse. They can even be driven over by forklifts or electric vehicles.

### Installation:

These products are adhered directly to the floor with urethane adhesives (see installation instructions). Please ensure the surface where these products are to be installed is dry and clean prior to installation.

### Performance:

- Performance surpasses that required by UL 1994
- Operating Life - 25+ years
- Warranty - 5 year limited warranty
- Glows all night long with a full charge

# Walkway Markers - Exterior

## Exterior Walkway Markers

Safe emergency egress doesn't stop when people leave your building. There may still be a challenge directing them safely to the pre-arranged meeting places outside your building.

Product Number:  
CPM-02

Dimensions:  
D 3" x H .245"  
Edge Height: .075"

Weight:  
1.5 ounces

### Description:

Safe Glow™ Exterior Walkway Markers were designed to guide people around hazards and barriers indoors or out. These work well to identify transitions, changes of elevation or even identify handrails on handicapped ramps.

### Design:

These ground-mounted markers are the result of years of testing and development. They are designed to weather the elements and glow all night long. The gentle sloped top meets ASTM guidelines for trip and fall prevention.

### Installation:

These products are adhered directly to the pavement with Bostick Moisture Cure, White 2175 FS, available from Safe Glow™. Please ensure that the surface where these products are to be installed is dry and clean prior to installation.

### Performance:

- Operating Life - 7+ years
- Warranty - 1 year limited warranty
- Glows all night long with a full charge
